

Sports Funding 2015/16

In 2015/16, we received £8200 funding through the Primary PE and sport premium. This provided high quality sports provision in school from specialist sports coaches provided through West Lancashire School Sports Partnership.

The PE funding was spent in a variety of ways:

- To maintain our involvement in the West Lancashire School Sports Partnership to enable teachers and teaching assistants to work with qualified sports coaches to help them teach PE and facilitate games more effectively. All pupils received 2x PE sessions each week.
- Pupils participated in sporting competitions, school networks and Able, Gifted and Talented events.
- To fund After-School and/or Lunchtime activities provided by qualified sports coaches from West Lancashire Schools Sports Partnership
- To further develop the outdoor playground to provide further physical education opportunities.
- To subsidise the cost of children attending sports activities and competitions provided by the sports partnership.
