

Pupil Premium Grant Expenditure Statement 2021-2022

For the academic year 2021-2022, with the financial year ending in March 2022 we will receive £6035 for PP children.

An analysis of the performance of our PP children in school for 2020-21 shows us that;

- PP children continue to achieve as well as other children in school. In many cases their achievement is better than their peers nationally
- PP children make exceptional progress; progress is significantly above that of all other children in reading, writing and maths
- PP children make excellent progress in school – there is no significant difference between their progress and the progress of non-PP children
- PP children attain just as well as other children in school. In all year groups there is no significant difference between the attainment of PP children and other children in school
- Attendance of PP children is rising year on year and is now above the levels for non-disadvantaged children nationally
- PP children have equal access to a range of trips, sports clubs and music tuition with transport provided by school and trips and lesson subsidised.
- PP children are supported by school to pursue extracurricular interest both within school and outside of school

Barriers to Learning

1. Poor communication, language and literacy skills of children create a barrier to learning.
2. Lack of Hardware which prevents access to remote learning during school closures.
3. Lower self-esteem and lower aspirations can impact negatively on attendance and academic achievement
4. Cost of pursuing extracurricular activities such as music tuition and sports outside of school is often prohibitive
5. Cultural Capital; despite achieving well academically, some children's access to the very best of what has been thought, said or done is limited.

We choose to spend our Pupil Premium money with 3 clear objectives in mind:

1. All Pupil Premium children should achieve at least as well as the other children in school and at least as well as other pupils nationally in all subjects.
2. School should seek to widen the horizons for pupil premium children by providing a range of sporting, musical, art and cultural activities that they would not otherwise have the opportunity to take part in.
3. School will support families financially with pupil premium money to ensure that their children can take part in a wide range of extra-curricular activities and trips where the cost would be prohibitive.
